EDUCATION

M.Sc COMPUTER SCIENCE

University of Calicut

V.T.Bhattathiripad College Manampatta, Palakkad, Kerala

CGPA: 4.25

Academic Year: 2023-25

B.Sc COMPUTER SCIENCE

University of Calicut

Mercy college Palakkad, Kerala

CGPA: 7.683

Academic Year: 2020-23

Higher Secondary

Kerala State Board

K.P.R.P Higher Secondary School, Kongad, Palakkad, Kerala

Percentage: 82.08%

Academic Year: 2018-20

High School

Kerala State Board

M.E.S High School Mundur, Palakkad, Kerala

Percentage : 92%

Academic Year: 2018

PERSONAL PROFILE

Date Of Birth: 27/12/2001

Gender: Female

Marital Status: Single

SKILLS

Programming Languages: **Java, c, Python ,PHP**

Web Technologies: **HTML,CSS** and **Javascript**

Framework & Tools: **FLASK, OPEN CV and MEDIAPIPE**

Database: **MySQL,DBMS** and **SQLite**

Query Language: **SQL**

Softwares: MS Excel and MS PowerPoint

PROJECTS

HARDWARE ZONE

“Hardware Zone” is a web-based application developed to automate the complete workflow of a manufacturing industry. The system is designed to handle raw material stock, manage production processes, and support the supply of final products. It reduces manual work by providing digital solutions for tasks like searching, updating, and tracking inventory and data records.

The goal of the project is to improve efficiency by minimizing paperwork, saving time, and enhancing accuracy in data handling. It is applicable across scientific, mechanical, and construction industries where hardware and material tracking is essential. The system also supports better decision-making through streamlined data management.

Back-End : php

Database : MySQL

Platform : Windows 10

DANCE JUDGE AI

An AI-based web application designed to evaluate Bharatanatyam group dance performances. The system analyzes two dancers in a video to generate real-time scores for synchronization, costume and makeup accuracy, helping automate traditional performance judging.

Developed "**Dance Judge AI**" an intelligent system designed to evaluate Bharatanatyam group dance performances using artificial intelligence and computer vision. The system analyzes synchronization, makeup, and costume using pose detection and facial recognition. It brings objectivity, speed, and consistency to classical dance judging by processing video inputs and generating real-time scores.
